FONDAZIONE
PROSSIMO MIO

General Admissibility Criteria
For the granting of contributions

- The Fondazione Prossimo Mio conducts charitable activities pursuant to art. 5, comma 1, letter u) of the Italian Decreto Legislativo 3.7.2017 n. 117 (Codice del Terzo settore), by means of free grants of money deriving from sums coming from the management of its patrimony or from donations collected for the purpose in question, in the favor and support of disadvantaged people or of Third Sector organizations different from social enterprises that operate in the sectors specified in art. 5.
- In particular, the various opportunities for funding will be accessible to entities of the Third Sector that are different from social enterprises and social cooperatives operating principally in the sectors specified in art. 5, comma 1, letters a), b), c), g), h), and i) of the aforementioned Codice del Terzo settore or to non-profit entities operating in the same sectors for the realization of socially useful projects with specific – but not exclusive – regard for social assistance and social health activities.
- With reference to the situation and the current state, from time to time the foundation verifies the activities pursued and the activities realized by the requesting entities; to this end, the requesting entities' foundational charters, statutes, and final budgets are evaluated; the foundation reserves the right to ask for or acquire further documents or elements for the proposed projects in question.
- The foundation may individuate, in terms and with modalities it considers opportune, other categories of subjects destined to have access to the opportunities of funding.

Excluded from contributions from the Fondazione Prossimo Mio are:

- For-profit entities or businesses of any nature;
- Entities and organizations that are not formally constituted by an officially registered document;
- Political groups and political associations, unions, professional associations, associations representing economic categories, employers' associations, as well as entities managed and coordinated or controlled by the aforementioned entities;
- Entities that aim at limiting the liberty and dignity of citizens or promote any form of discrimination;
- Individuals;
- Entities that pursue goals that are incompatible with those of the foundation;
- Funds may not be granted, nor be distributed even if approved, for the realization of projects that, even if presented by entities formally admissible based on the above-cited criteria, are attributable to ineligible entities;
- Funds may not be granted, nor be distributed even if approved, for projects only formally directed to the realization of activities of general interest, that is, for which emerges a commingling of the activities of the entity and the interests of a commercial nature and/or of external entities of a particular nature (that is, entities that are not functional for the general character of the project).

NOTE: this translation is provided as a courtesy. For any disputes arising in connection with the interpretation of the individual articles of these criteria and exclusions, the original version in Italian shall prevail.
